

## Outdoor and Nature Photography

Are you looking to expand your capabilities with your digital or film camera? Are you comfortable taking your camera off its automatic settings ... and you take your photograph instead of the camera taking what it thinks you want? Confused about f-stop, shutter speed and their interactions with the ever-changing outdoor light conditions? This class for beginners and intermediate level photographers will discuss these items and many more to increase that comfort level in an outdoor setting. There will be an optional shooting session at the end of the instruction period.

**Saturday, 9:00 AM – 3:30 PM**

August 29, 2009 (1 day)

Sol Levine, Instructor

**\$100**

## Me and My Digital Camera: We're Not Friends Yet

Are you ready to dump your new fancy digital camera because it has too many functions? Learn the ins and outs of your camera, the various file formats of various cameras and when to use them, camera functions and ways to store and output your photos. Students should bring their digital cameras, manuals and questions to the first class.

**Mondays, 5:30 – 7:30 PM**

September 14 – September 28 (3 weeks)

Roylee Duvall, Instructor

**\$70**

## Digital Photography I

(Ages 16 & up)

Learn how to capture, edit and produce top-quality images for the Internet and printing. By mastering digital camera techniques, you gain access to a whole new world rarely obtained by photographers with conventional film photography. Students should have a digital camera with manual exposure control.
